

SAFE T Owen county

Posted by Billyjoehenry - 06 Mar 2013 23:48

All of a sudden i'm picking up nothing on the Safe -T system for Owen County. Its been fine and then all of a sudden for the last 2 days is nothing. I can pick up surrounding counties on the Safe-T system just not Owen County. Anyone have any ideas?

Owen county police are now using Nexedge on VHF digital 159.090. They are still using the Safe-T system sometimes but not very much. From what i have heard this was the Sheriff's idea.

Fire/EMS and County highway are still analog. For now anyway.

Billyjo,from what I was told only the sheriff and Spencer PD have access to 159.0900 even though I have heard analog traffic on it.
