

state of delaware public safety - database

Posted by drm - 03 Nov 2013 02:10

the "state of delaware public safety" system had a freq change about 2 months ago. I know the new numbers. how can I get them into homepatrol database so I can download them through sentinel?

there in lies the problem. firmware v 2.04, db v 1/29/2012. so even though on a sentinel db update says current version there is trouble in paradise, so to speak. what should I do, uninstall sentinel and download again?

First, be sure you have the latest version of the Sentinel software on your computer.

From the top toolbar when Sentinel is running, click "Help", then "About".

It should say Version 2.02 (revision 04).

If it doesn't, go here and download it (the link is in the first paragraph there):

info.uniden.com/HomePatrol/ExtremeUpdate

Once you are running the latest version of Sentinel, follow the **2** steps in my other reply to you EXACTLY:

www.homepatrol.com/index.php?option=com_kunena&func=view&catid=41&id=12688&Itemid=38#12689

well after all the typical glitches, winzip exspired etc, you got my ears back! it's always nice to talk with someone that has it together. all I can say is THANK YOU!

have a great day, doug

Glad to see you have it. I've seen others that take days to do what, as you just demonstrated, should take a few minutes.
