

## unlock frequency range

Posted by ericdu62 - 17 Oct 2014 16:01

---

hello,

i'm search to unlock all frequency range, beacause the default range is not correct to france !

No way to unlock frequencies. These are made for N America and cannot be unlocked. I believe this function is hard coded.

What frequencies are you trying to receive?

If its within the range of the scanner then you can set up a custom search for it.

Tim

Not make sense to modify the firmware until the development is not completed.
