

Look for major changes SAFET and Indy/Hamilton Co

Posted by John - 21 Oct 2014 23:26

Safet has begun P25 testing in the Central Zone. The upgrade will change TGID's and UID's. The system will be changed over to the full digital system and no analog

Additionally Indy DPS is gaining more sites as Hamilton County joins the system. Testing and reprogramming of Hamilton County radios has begun.

With these changes there will be a huge plus as mutual aid between all involved will be much better, especially for Hamilton County users. Look for a full migration by Hamilton Co around the first of the year!
