Thanks. I'll probably pick one up today. Jeff Mall is supposed to have it in stock.

Preshadit!

Hey Dan, I went to Jefferson Mall and found it(& others), but none w/ the matching connection. I don't know what the homepatrol has, exactly, but I couldn't find any adapters to fit it. What did you get exactly? 'Cause I'm sittin here listening to some choppy crap and can't wait to do something about it.

Thanks, Roman

ScannerWorld.com

You need an adaptor. SMA Male to BNC female

SMABNC

I did the same thing you did and had to do some research.....Go to scanner world and look it up. If you have any questions, you can call me.

Not yet. Found the adapter on line. Had already spent my fun money on parts for a old laptop, but they're cheap enough that I'll together get it in a couple weeks, probably.

Thanks for your help.
