

DATA BASE UPDATE CHANGE FAVORITES LISTS? (HP2)

Posted by tortslaw - 25 Jun 2015 15:02

When I update the database in Sentinel and I load it into HP2, are those DB changes automatically applied to the data in the favorites lists that contain the earlier database information?

=====

Updating the master database does not alter your favorites lists in any way. Any updates to favorites lists must be done manually.
