

HP1 continuously asks to charge batteries

Posted by slikksterr - 10 Nov 2017 03:14

I get it 3 or 4 times a day... beep beep, do you want to charge batteries yes or no ?! Drivin me batty!

I say NO, but it asks again and again.

I use duracell alkalines that are non charging type, only for backup if power goes out.

Can anyone tell me why this happens?
