TO WHOM IT MAY CONCERN

I ordered a Home Patrol scanner and was unable to get the following frequency

855.73750-866.05000-866.22500-866.31250-866.42500-866.60000-866.95000-867.10000

867.42500-867.63750-867.95000-868.26250-868.77500-868.95000-868.98750

MUNCIE (DELAWARE CO.)STATE OF IN. 47304

Do you have any plans to add these frequency and if so when?

Those are the frequencies for the Muncie (Delaware County) site on the SAFE-T Statewide system. They are loaded and scanned when you put in 47304.

As Upman says those are the Muncie Delaware Co site for SAFET, and I know they work on the HP-1 as I listen to them daily. Check things like your range, squelch and make sure that the system isn't locked out , oh and the attenuator should be off.
