

## Anyone try HP-1 on Georgia Intersate (I-75 & I-85)

Posted by Wise87 - 10 Nov 2010 10:13

---

Just wondering if anyone has made a roadtrip through Georgia with the HP-1 yet to see how well it picks up the Georgia State Patrol. I plan on driving up I-85 during the holidays and hope the HP-1 performs as it should.

on Sunday 11/07 I drove from ATL>SAV via I-285, I-85, I-75. I-16 with the HP-1 on all the way. NOTE: I wouldn't do it again anytime soon as around Forsyth it took 3 hours to move 5.2 miles as all southbound lanes were clogged with standstill traffic due to road construction!

I switched from my SAV Fave lists to the RRdb programming for local zipcodes and heard the usual GSP services. In the long hours it took to make the trip I saw not a single GSP unit until around Dublin on I-16 where they were running some speed measuring from an overpass.
