

Not receiving STARS in the Fredericksburg area

Posted by dhmann911 - 12 Nov 2010 14:10

I am not receiving any STARS info in the Fredericksburg area.

When I put in 22553, VA STARS loads with Div 1, 2, and 3 plus some other statewide channels.

Okay Paul, that sounds right so I'm assuming that I did not download the latest database properly. User error on my part I'm sure. I will re-try downloading the database when I get home. Thanks again for your help!

Paul, as you suggested, I did successfully download the current database and that fixed the problem by loading the STARS system. However, for some reason I am not picking up anything on STARS but that

could be a reception issue due to where I am located. With my 396 I have issues with STARS reception from my house.

As always, thanks for your assistance and help with making this a great product and quickly answering user questions like mine. I'm sure I will have more in the future.
