

## RR data base

Posted by 2coycproc - 24 Nov 2010 12:58

---

Hello All;

I have just updated my HP-1 with the new RR DB 11/23/2010, and all went very well.

My question is;

Are my favorites updated as well, or do I have to update them manually, if so,how do I do that.

I have noticed that when I use the NEW FULL DB, the tags in my area have been updated, but when I use one of my &quot;Favorites&quot;, the tags are the old ones...Hummmmmm

:huh:

Only the Main db can be updated. Favorites lists are not changed.

---

You need to rebuild the Favorites List using the new channels.

Thanks UPMAN,

that is what I thought, a bit of a pain in the A.. just get the new alfa tags!!
