

Any Michigan owners yet?

Posted by hsstibel - 27 Sep 2010 08:26

Hi, was wondering if anyone from Michigan has one yet and their initial opinion or review. Thanks,
Howard

Leaving for the post office now, mine should be here.

Mine arrived today. I'm pretty happy with it. I did have some problems setting up and really not sure what it was. I wound up restoring it to its original state and started over. I live close to the Toledo Ohio border so I was loaded up with both states and it seemed like very little Monroe county was coming through. This time after setting up a favorite list and sorting through some of it everything seems to be good. I have it next to a Uniden 996T to compare Monroe County. Both are stopping on the same channels. My WX reception is not as good as what is on the 996T. I'm a little unhappy about that. Good Luck, Howard

I noticed the wx I normally listen to is weak, I'm guessing/hoping it's just the antenna is not tuned very well at that frequency.

HSSTIBEL,and TOM899

After reading your post tried WX can't receive any of the 10 WX channels at my location,Macomb Twp. Even when I took the unit outdoors. Havn't try it with a different Antenna.Need to get a antenna adapter first.:(

Hmm, no trouble here, 3 weather channels coming in loud and clear.
