

So anyone try the HP and Extreme features at local

Posted by John - 09 Sep 2011 22:42

Just curious if anyone had tried the new features at local sports yet? I live a quarter mile from a high school, middle school and elementary school and it's amazing what the HP has caught during a football game, tennis match or cross country. And thats just using coventional discovery. The ext home football game I'll try the trunked system and see what pops up.
