I go out severe storm chasing with Roger Hill's Silver Lining Tours. ( [www.silverliningtours.com](http://www.silverliningtours.com) ).

On my last chase, one of the drivers had his Home Patrol 1 hooked up and we picked up the local patrols and WX severe broadcasts. After I saw it I couldn't wait to get one. So far it's been a great scanner and I listen to it just about every day.
