

home patrol 1 question

Posted by codeman29 - 16 Oct 2019 05:01

Hi My name is cody and i have Home patrol-1 i've had it for like 5 years now, the last update i got was like a year or so ago, when is the next Firmware update coming out, cause i check everyday and hasnt been one since like Feb/11/2018. So i was just wondering when the next one gonna be or how i can get the updated Version, the firm ware version i do got is, 2.06. If you can help me out that would be great

=====

There have never been any firmware updates for the HP-2.

There have been no recent updates for the HP-1.

The last firmware update available through Sentinel for the HP-1 (2.06.06) was released over 3 years ago.

The last firmware beta release (manually installed download) for the HP-1 (2.06.08) was released about 5 years ago.
