

Saskatchewan Homepatrol Users?

Posted by DGG - 14 Dec 2010 20:59

Since the population of Saskatchewan is low, I'm wondering how many users on the board already have a HP-1? It would be great to know who in the province is using the scanner and if there was a way to share Saskatchewan specific information.

Beyond this, I wonder how many are hearing Fleetnet traffic anymore? The only occasional traffic I hear is Traffic Patrol, but never anything from snowplows or road crews. I know most of the traffic has moved over to the new provincial system.

Any input from fellow Sask users?
